Exhibitor Information

**Come Join Us for ARMA 2015 San Francisco,
Westin St. Francis on Union Square Hotel, San Francisco, CA, USA**

ARMA welcomes rock mechanics practitioners from around the world to the 49th US Rock Mechanics / Geomechanics Symposium running from 28 June to 1 July 2015 at the Westin St. Francis on Union Square in San Francisco, California.

We invite you to promote your company as an exhibitor at 2015's premier rock mechanics conference – **ARMA 2015 San Francisco**. The symposium encompasses all aspects of rock mechanics, rock engineering, and geomechanics – scientific and applied papers will be presented in petroleum engineering, civil engineering, geology and geophysics, mining engineering, and underground construction.

ARMA's annual symposium continues to grow in size and stature. In 2013 when last in San Francisco we received #350 papers and saw #630 delegates attend. This year we received the highest number of papers to date and are looking forward to a very successful event! Despite the economy, the time is never better to make solid connections in this evolving and relevant industry that our world relies upon.

The comprehensive plenary, technical and trade exhibition program at **ARMA 2015 San Francisco** will ensure that your firm is positioned well to connect and network with this key audience of state, national and international industry leaders and decision-makers.

The trade show will tentatively open at 7:00 p.m. Sunday, June 28 for the Opening Exhibitor Reception and then Monday, June 29 through Tuesday, June 30 daily from 10:00 am until 5:00 pm, providing 2 ½ days of contact time with the delegates.

To secure your booth you must register online @
www.armasymposium.org/sf_2015/exhibits.html or contact us for more information:
